BAUFORMAT HIGHLIGHTS

**Haji German Kitchen Solutions
100 years of Excellence**

WELCOME

BAUFORMAT produces quality kitchens "made in Germany". Made to last for ever with a focus on high material value, kitchens are created at the group's main production base in Löhne with anyone wishing to fulfil their lifelong dream. Bespoke, made to measure and finished with genuine lacquer fronts, BAUFORMAT meets the high-end expectations that are placed on high-quality cabinetry.

DESIGN FOR DISCERNING TASTES

White is a furnishing classic par excellence. Black adds dramatic impact: e.g. in the form of handles, dark smoky glass or on the splashback. Orion grey makes an elegant detail on the inside of pull-outs. Well planned: The cooking island goes that extra mile as a meeting point for gourmets and those who like to indulge.

welcome to

kitchen
family**

ANTARO

INTIVO

TECHNOLOGY BY BLUM

The INTIVO version with smoky glass is optionally available with the extra high rear panel (**183 mm**) of the blum ANTARO frame.

Both versions are based on the TANDEMBOX carcass profile, which has been tried and tested in millions of applications. Appearing to float, its smooth running action has been impressing users for many years. Designed for load-bearing classes of **30** and **65 kg**, the low-wear nylon roller runners provide a high quality of movement.

Drawers, pull-outs and interior compartments are matched to the quartz-grey design carcass.

MATRIXLACK-FRONT: POTSDAM

A hard-wearing and scratch-resistant material. The combination of wood-based material, decorative layer and hardened matt lacquer allows liquids, chemicals and fingerprints to bounce off its insensitive and light-resistant surface.

DESIGN CARCASS COLOURS

Our units in white, carbon, greige and quartz grey always come in the same finish both inside and out.

For an extra charge, we can offer you further carcass colours for a matching finish on the inside and outside.

This service can also be provided for individual units within an order.

LINEAR MOUNTING PLATE

The linear mounting plate is discretely hidden behind the hinge. As a result, no mounting screws are visible.

Tried and tested in millions of applications, the CLIP mechanism makes the hinge easy to install without the need for tools.

A TOUCH OF COLOUR

Our range of quality lacquer colours includes gloss, matt and high-gloss UV lacquers. Whether visible sides, side panelling, plinths, shelf units, cornices or light pelmets – on request, we lacquer all components in the same colour as the front panels. The backs of all fronts are finished in matt lacquer.

PLYWOOD

PLYWOOD

Made of solid poplar and birch that is cross-glued in layers to create a comparatively light yet extremely stable wood material that is also far more resistant to moisture: plywood.

MADE TO MEASURE

Do you need custom sizes?

We offer custom height, width and depth reductions – to the accuracy of a millimetre.

8 mm

8 MM REAR PANEL (OPT.)

Do you want to give the unit even more stability?

If so, opt for the exclusive **8 mm rear panel** which is screwed to the carcass and also available for individual units within an order.

ENIGMA - FASCINATING HIGHLIGHTS

The ENIGMA glass front, with its impressive shimmer, is an exclusive BAUFORMAT creation.

In combination with light, ENIGMA exudes a truly magic radiance.

BAR/COUNTER TOPS

Tops in a thickness of **90 mm**, finished on both sides in your chosen decor with PP edging all round.

Available in **21 decors** and maximum size of 2,700 x 1,190 mm.

PANEL THICKNESSES

Choice of three panel thicknesses **16, 25** and **40 mm**: matt or gloss laminate, matt or high-gloss lacquer and any worktop decor. The 25 mm panels are also available to match the TreeTime range. All lacquer colours are available for panel thickness **8 mm**.

SOMETHING FOR EVERY-ONE

We can offer you...

- 213** Fronts (29 of which are anti-fingerprint)
- 36** TreeTime fronts
- 75** Decors for visible sides
- 68** Handles

WORKTOPS

You can choose from **35 decors** for our **16, 25** and **39 mm** thick worktops.

Added to these are **3 decors** for the **12-mm** compact worktops.

CP

For the handleless kitchen of pure elegance: the base units are divided in the classic way, i.e. have two horizontal grip ledges.

Available in carcase heights **780 mm** and **845 mm**.

CP ONE

Here, there is only one grip ledge at the top directly below the work surface.

The lower pull-outs come with TIP-ON as standard.

ERGONOMICS

Getting working heights exactly right is an indispensable part of planning any kitchen. Cabinets dimensioned to suit those using them reduce back strain and enhance ease of use. Our lineup gives you a wide choice of carcase heights to provide the perfect solution.

TIP-ON

With mechanical TIP-ON opening, a light tap on the front is all it takes to open and close units even more easily and conveniently.

COLOURED GRIP LEDGES

Our grip ledges are available in stainless-steel or brass look, in **16 matt lacquer colours**.

We can also supply the grip ledges with LED illumination. This is permanently integrated into the profile, not bonded to the underside.

INDUSTRIAL STYLE

Kitchens in the Industrial Style are a popular trend.

Distinctive elements with rugged character meet homely accessories and give the kitchen its very own particular charm.

Awarded the "BMK Innovation Award 2017"

MEGA DOORS

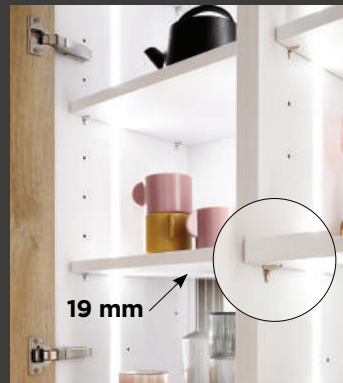

Front extensions upwards and downwards are proof of architecturally sophisticated planning quality. The fewer open joints a piece of furniture has, the more minimalist its appearance. For a generous overall effect that inspires.

Maximum length up to 2600 mm. *With the exception of the Straßburg, Bilbao and Paris fronts.

CARCASE HEIGHTS

For even greater planning freedom, we adding the new carcase height of **845 mm**, which complements the existing carcase heights, to its comprehensive range of types.

ADJUSTABLE SHELVES

19 mm thick with metal shelf supports and removal guard – these are our sturdy adjustable shelves. The base unit with uninterrupted doors has two, the wall unit in a height of 910 mm even three shelves to make perfect use of storage space. We can supply the unit with optional vertically recessed LED interior lighting.

FLUSH INSTALLATIONS

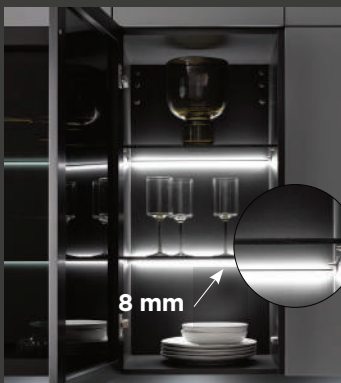

Providing the technical specifications and upon provision of the drawing, we now offer cutouts for flush installation of sinks and cooktops for nearly all standard market models.

(including those from third-party manufacturers!)

POCKETDOORS

Our pocket door system is recommended for an exclusive, multifunctional interior. Cabinets can be transformed from closed living room furniture into an open solution full of functionality in a single movement.

ADJUSTABLE GLASS SHELVES

The front edge of our **8 mm** thick shelves made of toughened safety glass are ground and bevelled.

THROUGH-PASSAGE DOORWAYS

The new through-passage doorways are a design innovation: they allow discreet passages to storage and utility rooms or as a partition to the home office so as not to disturb the harmonious overall picture.

SPACE CORNER

This lets you make optimum use of space in the corner.

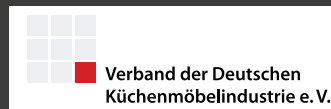

The Space Corner is available in the following widths:

- 90 x 90 cm***
- 100 x 100 cm**
- 105 x 105 cm***

*) with optional cutlery tray

AWARD-WINNING QUALITY

KM KÜCHENMEILE
GERMANY

GOLDEN M

The „Golden M“ from the German Furniture Quality Assurance Association (Deutsche Gütegemeinschaft Möbel e.V. - DGM) is regarded as the most stringent proof of quality for furniture in Europe and is Germany's only RAL quality label in this segment. Our furniture undergoes regular inspection by an independent body. In other words, the „Golden M“ guarantees you the high quality of our kitchens and also provides a key to healthy home living.

TESTED SAFETY

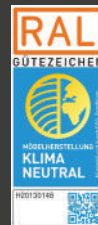

With the internationally acknowledged GS label of tested safety, we ensure that our products meet the quality and safety standards of the German Product Safety Act (in short ProdSG).

The GS label provides you with valuable assistance in deciding which product to buy. You can rely on the quality and safety of our products.

MADE IN GERMANY

We combine acknowledged brand quality with decades of experience and responsible planning, design and production in Germany. The brand is presented in Ostwestfalen-Lippe in a spacious permanent exhibition for specialist retail partners and prospective customers.

CLIMATE-NEUTRAL COMPANY

The management and the entire team have set themselves the goal of preserving an intact environment for future generations. It is in this way that we make a reliable contribution to protecting our climate.

BLUE ANGEL

Our furniture carries the Blue Angel label. Because the woodbased materials are sourced from sustainable forestry, produced and processed with low emissions and harmless to health.

PEFC

Our company group holds PEFC certification. This guarantees that the raw materials for our kitchen and bathroom furniture only come from sustainably managed forests.
