HIGHLIGHTS

Haji German Kitchen Solutions
100 years of Excellence

WELCOME

A kitchen can be everything: a refuge of well-being, filled with aromas and the gentle clattering of pots and pans. Or a party zone for favourite guests who stay until dawn.

How about a compact zone on just a few square metres? Or are you dreaming of a cooking island for cooking with family and friends?

Whatever you picture - with our kitchens, **wishes come true.**

welcome to
**the
kitchen
family**

ANTARO

183 mm

TECHNOLOGY BY BLUM

We supply ANTARO drawers and pull-outs in light grey on full-extension runners with accessories in matching colour. The ANTARO pull-outs are also available as an alternative with square-section railing and matching 4 mm glass sides.

At **183 mm**, these pull-outs have the highest rear panel on the market!

TIP-ON

Thanks to the mechanical TIP-ON opening support system, a light touch is sufficient to open the hinged doors.

TALL UNITS

As the design highlight, we provide tall units with uninterrupted fronts up to a carcass height of **2.118 mm** for fronts with 4-side thick edges.

DOOR HINGE CLIPTOP BLUMOTION

Our doors can be equipped with a soft-closing function as an option.

Whenever necessary, this can be deactivated on the hinge without the need for any tools.

A TOUCH OF COLOUR

Our range of quality lacquer colours includes silky matt, high-gloss PUR lacquers.

Whether side panels or light pelmets – on request, we will lacquer all components to match the front colours in the range.

ALL GOOD THINGS COME IN THREES

Therefore, we not only equip our **940 mm** high cabinets with a third shelf, but also with a third door hinge.

For optimum space utilization and improved convenience.

MADE TO MEASURE

Do you need custom sizes? We offer custom height, width and depth reductions - to the accuracy of a millimetre.

CONCEALED ALL-METAL CABINET WALL MOUNT

With precision 3D adjustment and lift-off guard.

DIN EN-14749.

TALL UNIT REAR PANEL

The rear panels of all standard side cabinets are screwed and glued.

This guarantees a high level of stability and durability.

CEILING PANELS

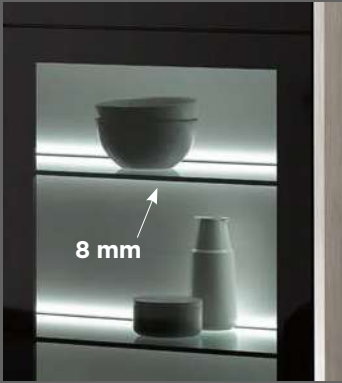

Our new ceiling panels perfect especially generous, floor-to-ceiling designs and open up additional storage options.

GROOVE FRONT

The groove is on-trend: When line meets line, it creates depth effects with a unique impact.

Available in the Soft Groove and Dark Groove decors.

ADJUSTABLE GLASS SHELVES

The front edge of our consistent **8 mm** thick shelves made of toughened safety glass are ground and bevelled.

They are fitted on translucent plastic shelf supports with metal core and removal guard.

LED GLASS EDGE LIGHT VIVARA

The indirect lighting gently illuminates the surroundings without directly shining into the eyes. Easy installation by attaching it to the back of the glass shelf.

FLUSH INSTALLATIONS

We offer the cut-out for the flush installation of sinks and hobs by various renowned manufacturers from our supply range with the corresponding identification. The seamless transition appeals for aesthetics and hygiene.

SHELF ERRE8

With its 8 mm thin, black aluminum profiles, smooth surface, and rounded corners, our new ERRE8 shelf can seamlessly integrate into any environment.

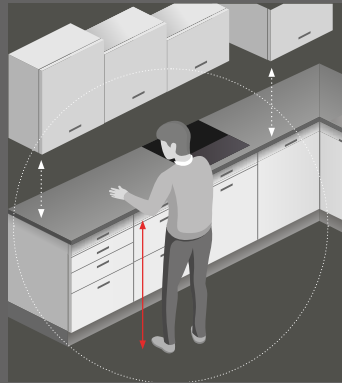

SPACE CORNER

Exclusive available with us! This lets you make optimum use of space in the corner.

The Space Corner is available in the following widths:

- 90 x 90 cm***
- 100 x 100 cm**
- 105 x 105 cm***

*) with optional cutlery tray

ERGONOMICS

Getting working heights exactly right is an indispensable part of planning any kitchen. Cabinets dimensioned to suit those using them reduce back strain and enhance ease of use. Our lineup gives you a wide choice of carcass heights to provide the perfect solution.

THROUGH-PASSAGE DOORWAYS

The new through-passage doorways are a design innovation: providing unobstructed access to storage and utility room spaces that don't spoil the lovely, well-balanced overall picture.

HIGH-QUALITY LACQUERED FRONTS FROM PRICE GROUP 3

e.g. LAILA, LARA, MARA, SOPHIE.

Lacquer on MDF substrates with matching laminate visible sides and carcass edges.

BAR/COUNTER TOPS

Tops in a thickness of **90 mm**, finished on both sides in your chosen decor with PP edging all round.

Available in **21 decors** and maximum size of 2,700 x 1,190 mm.

SIDE PANEL THICKNESSES

There is a choice of three side panel thicknesses – **16, 25 and 40 mm** – in selected colours and decors. You are also free to decide on surface finish: Matt or gloss laminate and any worktop decor.

FÜR JEDEN ETWAS

We can offer you..

- 68** Handles
- 85** Fronts (10 of which are anti-fingerprint)
- 20** Carcase decors
- 10** Decors for visible sides

16 MM COUNTERTOP

Our **25 mm** and **39 mm** thick countertops are complemented by the **16 mm** thickness. You have the choice of **35 decors**.

LINEA PIANTRA – HANDLELESS KITCHENS

For the handleless kitchen of pure elegance: the base units are divided in the classic way, i.e. have two horizontal grip ledges. **More than 70 fronts** are available to choose from.

Do you want to add highlights? We can also supply the grip ledges with LED illumination integrated into the profile.

Our grip ledges are available in the following colour versions:

- Stainless steel coloured
- Polar white, powdered
- White, powdered
- Moonlight grey, powdered
- Quartz grey, powdered
- Black, powdered

ANTI-FINGERPRINT SURFACE

A patented technology makes the silk-matte surface of our programmes Jette and Paula a sensation.

Fingerprints on the surface are barely perceptible or not visible to the naked eye.

AWARD-WINNING QUALITY

GOLDEN M

The „Golden M“ from the German Furniture Quality Assurance Association (Deutsche Gütegemeinschaft Möbel e.V. - DGM) is regarded as the most stringent proof of quality for furniture in Europe and is Germany's only RAL quality label in this segment. Our furniture undergoes regular inspection by an independent body. In other words, the „Golden M“ guarantees you the high quality of our kitchens and also provides a key to healthy home living.

PEFC

Our company group holds PEFC certification. This guarantees that the raw materials for our kitchen and bathroom furniture only come from sustainably managed forests.

MADE IN GERMANY

We combine acknowledged brand quality with decades of experience and responsible planning, design and production in Germany. The brand is presented in Ostwestfalen-Lippe in a spacious permanent exhibition for specialist retail partners and prospective customers.

CLIMATE-NEUTRAL COMPANY

The management and the entire team have set themselves the goal of preserving an intact environment for future generations. It is in this way that we make a reliable contribution to protecting our climate.

TESTED SAFETY

With the internationally acknowledged GS label of tested safety, we ensure that our products meet the quality and safety standards of the German Product Safety Act (in short ProdSG). The GS label provides you with valuable assistance in deciding which product to buy. You can rely on the quality and safety of our products.

BLUE ANGEL

Our furniture carries the Blue Angel label. Because the woodbased materials are sourced from sustainable forestry, produced and processed with low emissions and harmless to health.
