

Life is
waterful.

Dream bathrooms

[hansgrohe.com](https://www.hansgrohe.com)

A Brand for Life

Day after day, we pour all our passion and precision into creating unforgettable water experiences that meet high standards and generate genuine enthusiasm. We believe the bathroom is a place that, if a holistic concept is introduced, can enrich your life and fill it with lots of emotions and extraordinary moments. It is a place to feel special, every single day. Where you are free to express your individuality and enjoy the beauty of water with all your senses.

hansgrohe – at home all over the world

International hotels and business customers collaborate with the Hansgrohe Group because they appreciate our experience, reliability, and flexibility. They can rely on our extraordinary quality and excellent design – and on our products being suitable for their project requirements. They value the comfort and efficiency that results from working with us, a supplier that caters for all bathroom needs. No matter what kind of project is being planned and where on Earth it is, hansgrohe is always the right partner.

Bubbling with ideas since 1901

Company founder Hans Grohe's pioneering spirit is deeply rooted in our DNA and shapes the work we do.

The Hansgrohe Group today

As a company, Hansgrohe employs over 5600 people working at 53 sites on all continents. So it is safe to say we are a global player in the sanitation industry. The products from the AXOR and hansgrohe brands have won over 700 design awards. Visitors can touch and try out our products at international trade fairs and events, our Water Studios and the Aquademie at our headquarters in Germany.

Setting the rhythm of water

Once upon a time in the Black Forest: In 1901, Hans Grohe founded a craft business for spun metal goods and became a shower pioneer. Our passion for water and our aim of setting the style have remained constant ever since. Our innovative strength is down to our dedicated, experienced, and experimental teams. And we are always finding new ways to express our passion with products that stand the test of time. We set the rhythm of every droplet and create water sprays that caress the body and coat it in cosiness. So that people can feel our state-of-the-art engineering and design quality on their skin.

Innovation

Life is in constant motion.

hansgrohe has been one of the pioneers and innovation leaders in the sanitation industry since day one. We are constantly pushing the limits of the technically feasible and, in so doing, revolutionising mixers, showers, and bathrooms. Not only do we optimise designs and materials, but we are also constantly rethinking functionality by continuously addressing our customers' needs. Sensual spray types like PowderRain and pioneering installation solutions like the iBox universal 2 are good examples of this. Through our inventions, we encourage people to enjoy the beauty of water.

Life is beautiful.

From lovingly designed details through to a holistic view of a complete bathroom: For us, modern design is more than just an appealing look. hansgrohe design combines timeless beauty, functional finesse, and the highest hand-crafted quality across all product ranges. Numerous awards confirm our pursuit of the extraordinary and highlight our close cooperation with design studio PHOENIX. On top of this, we follow our ECO design principles every time we develop our products so that they look appealing and are eco-friendly.

Learn more about
ECO design principles.

Quality

Life is a journey.

Our products stay with people for years and years. They create feel-good moments and offer sensual experiences tailored to individual needs. The premium quality of our products is not only measured by the material properties, but also by the joy they bring in the long run. We ensure our customers across the world are satisfied, for example through user-friendliness, a voluntary five-year manufacturer's guarantee and a Service Center that handles all technical concerns. This is why many consumers become lifelong hansgrohe customers.

Find out more about the
manufacturer's guarantee.

Responsibility

Life is precious. And so is our planet.

Saving water and energy are two matters close to our hearts at hansgrohe. And so we develop products for impressive water experiences with reduced resource consumption. Because we don't want to make our customers choose between wellbeing and sustainability. As the use phase of mixers and shower heads installed in people's homes is the most carbon-intensive, we are converting our entire water-bearing product range to water- and energy-saving technologies by 2030. We use recycled material whenever possible, for example in the hansgrohe Planet Edition. Our products are also robust, long-lasting, and easy to repair.

The bathroom of tomorrow: Our Green Vision

Wellness or climate protection? Our bathroom requirements compete with the growing need to conserve water and energy. An internal conflict for all of us. But does it have to stay this way? No. Hansgrohe's Green Vision separates hygiene and wellbeing, thus enabling unlimited, almost waterless regeneration. The concept consists of two bathroom platforms: **BASE** is there for personal hygiene, while **SPHERE** is a space for mental retreat. Our Green Vision has real future potential. Even today, the technical innovations of the individual modules are already being incorporated into product development for the AXOR and hansgrohe brands.

90%

less water consumption,
less energy consumption,
and less CO₂e emissions
in the bathroom.

our Green Vision.

The bathroom of today: Our green reality

9 out of 10 customers agree:
Pulsify EcoSmart delivers
a great shower experience –
and **saves 40% water.***

*Source: trnd consumer survey with 150 respondents in July 2022. Water saving: Compared with the consumption of an average hansgrohe shower without EcoSmart.

hansgrohe integrates water- and energy-saving technologies.

The hansgrohe water savings calculator instantly determines how much water, energy, and money can be saved with our showers and mixers. The wonderful thing is, reduced water consumption helps people to cut down on valuable resources without sacrificing the usual comfort.

Calculate the savings potential now.

EcoSmart

Thanks to integrated flow limitation, hansgrohe showers with EcoSmart use up to 40% less water than our showers without this technology. With EcoSmart+, it's as much as 60%. Many EcoSmart showers therefore consume only 8 l/min* – or just 6 l/min* or less with EcoSmart+.

EcoSmart also uses flow limitation to reduce water consumption to around 5 l/min* in hansgrohe lavatory mixers, while EcoSmart+ mixers consume as little as 4 l/min*.

*at 3 bar

Find out more about EcoSmart.

The life cycle of a hand shower

Most CO₂e emissions in the bathroom are generated in the use phase, i.e. through the provision of hot water for the shower, bath tub, and wash basin. Using the shower therefore emits around 1000 times more CO₂e than it takes to make the shower head. **The bottom line:** hansgrohe helps to conserve resources at home.

Production

Disposal

According to the "hand showers" environmental product declaration (EPD) verified by the IBU Advisory Board in 2023, the "total global warming potential" indicator for an average hand shower in the production phase (A1-A3) is 1.08 kg CO₂e. Water consumption, hot water production and cleaning the shower head during the use phase (B2, B6, B7) together amount to 1008.2 kg CO₂e.

**hansgrohe uses
warm water
efficiently.**

CoolStart mixers support sustainable lifestyles because only cold water runs when the handle is in the centre position – whereas with standard mixers in the basic position, hot and cold are automatically mixed and energy is immediately consumed.

CoolStart mixers

Example calculation: A four-person household that heats water with gas can expect the following positive results when using a hansgrohe CoolStart mixer rather than a conventional one:

508 kWh less consumption per year
 23 kg less CO₂e per year
 € 61.97 saving per year

To sum up: Starting cool reduces CO₂e emissions and goes easy on people's wallet.

Discover the basis for these calculations.

Thermostats that actively control the water and temperature

Our thermostats are intuitive to use and continuously balance out fluctuations in temperature and pressure for the nicest shower experience at all times. Controls and buttons with smart technology also reduce water consumption and limit the temperature, helping to save valuable resources.

PHOENIX: An outstanding think tank

Two eminently successful designers:
Andreas Diefenbach (right), Managing Partner
of PHOENIX and Matthias Oesterle, Design
Director at PHOENIX

“We home in on self-explanatory interaction and aim to use this to make a brand’s identity come alive in a touching way.”

Tom Schönherr, founder of PHOENIX

PHOENIX and hansgrohe – decades of being partners, a strategic dream team.

PHOENIX is considered one of the leading independent studios for product and interface design worldwide. The immensely successful Stuttgart-based design workshop uses modern, clean lines and adds emotion to increase the desirability of everyday items. Whether they are designing mixers, office chairs or gymnastics apparatus, showers, cabinets or service robots, the objects designed by PHOENIX last a long time and bring lots of joy. From analogue to digital product ranges, the high-flying designers always succeed in striking the balance between functionality and magic.

... and a strategic dream team for future strokes of genius

PHOENIX is an integral component in German design history. Founders Andreas Haug and Tom Schönherr caused a stir even when they were at frogdesign, a legendary design studio from

the 1970s. The pioneers have spent just as long shaping the face of hansgrohe, as PHOENIX has been exclusively designing all the key products for our premium brand since its foundation. Design first found its way into bathrooms in the groovy seventies, and it was the PHOENIX-hansgrohe dream team that instigated this transformation. We have been working together to create an intelligent combination of design, functionality, and comfort (in short, user-friendliness) ever since. We pour our heart and soul into creating products that stand the test of time in terms of technology and looks. And we do it for people who want to feel and love their design objects.

PHOENIX's success is backed up by more than 900 renowned design awards to date.

What does “premium” actually mean?

Brand quality – uncompromisingly high-end

Our customers can expect the highest quality in terms of materials, shapes, and functionality. Ultimately, they see and use their bathroom products every day. Everything should always look exceptional, be easy to use, and conserve resources. We therefore always involve our consumers and plumbers in the testing of our concepts, prototypes, and products. Our promise: People who choose hansgrohe get long-lasting brand quality.

Service quality – 5 star service

The hansgrohe Master Service offers customers professional information and advice on all questions and issues. Customers can also chat to us at trade shows and events. hansgrohe offers a voluntary manufacturer's guarantee of 5 years on showers and mixers and 20 years on ceramics. Spare parts can be purchased from us online, and we will guarantee 15 years of availability of said parts. Our specialist partners range from tradespeople to retailers, right through to planners and architects. They have access to our expertise 24/7 via online support, seminars, and training. We are regularly presented with "best of" awards from our plumbing, heating, and cooling specialist partners.

Find out more about the manufacturer's guarantee.

“When it comes to service, we at hansgrohe think in terms of solutions and have a goal: We want to turn customers into fans of our brand. So we are on hand to offer guidance with fast response times and extensive information via all channels.”

Danny Stahl, Head of Professional Service & Support at the Hansgrohe Group

Product quality – safe, reliable, simply the best

Health takes top priority for us: hansgrohe products meet the strictest drinking water regulations, hold all the major approvals, and are easy to install. And our standards are far higher than the norm. We therefore prefer to manufacture our main components ourselves, and we run our own spray and sound laboratory. Each product needs to prove its worth over and over in test cycles, stress tests, and quality assurance inspections. When it comes to research, development, and manufacturing, only the best will do.

(Copyright: Hansgrohe SE)

hansgrohe delivers premium quality. Our customers can see and feel this – and can look forward to long-lasting enjoyment from our high-quality products.

Dream bathrooms

For incomparable water experiences, we at hansgrohe don't think in terms of just the products – we transform individual elements into holistic bathroom experiences. We offer furniture, ceramics, and mirrors alongside mixers, showers, and accessories. This creates perfectly coordinated, interactive environments for individual tastes. Use our interior design examples for inspiration. And enjoy the many benefits of purchasing everything from one supplier.

Start planning now with the hansgrohe Inspirator Tool.

What does your dream interior look like? Use our Inspirator Tool to design the bathroom of your dreams in 3D. Create an oasis that fully reflects your taste by choosing from a range of styles, materials, and colours.

How to create your dream bathroom in a few simple steps:

Find inspiration here.

1

Choose your style

Natural? Minimalist? Family-friendly? Tell the planning tool exactly what you want.

2

Select the floor plan, walls, flooring, and bathroom products

Compose your interior design however you like and with matching solutions in the washplace, showerplace and toilet area.

3

Make dreams come true

Send your dream combination to a retailer and make your new bathroom a reality together with sanitation experts.

Bring your very own dream bathroom to life.

Head over heels in love with water?

This minimalist bathroom has been designed to suit your personal taste and create lasting memories. This is a place where you can enjoy emotional water experiences and maximum comfort – with no barriers. The bright, timeless space creates a sense of warmth and wellbeing through the use of different surface finishes, shapes, and materials.

Standing in the rain has never been sweeter.

Rainfinity showers win awards and set trends in bathroom design. The shower system pampers you with PowderRain cascading from the overhead, shoulder, and hand shower. Thousands of micro-droplets wrap you in a coat of wellbeing. Design fans appreciate the elegant shapes, integrated shelves, and premium quality. The FinishPlus colour used to create this shower ambience is called Brushed Bronze.

An inspirationally clear frame for all the feels

The bathroom is defined by streamlined shapes: Everything is linear and arranged as if on a gallery wall. The result? Framings that immediately stand out to art lovers. The geometric Metropol mixers create additional structure and are wall-mounted to provide lots of elbow room. The large Xarita E mirror with LED lighting frames you in a flattering light and creates depth. Its smart functions can be activated intuitively, as if on a touchscreen. The room is waiting for you to add personal touches to it – the objects merely act as inspiration for your journey with the hansgrohe bathroom.

Peter Ippolito, architect of the design lover bathroom

“We’ve designed this bathroom for connoisseurs who value art and design. The streamlined shapes and timeless straight lines are just asking to be enriched with personal items.”

Dream bathroom for anyone with children

Because family is the greatest adventure

This shower system offers deeply relaxing moments with PowderRain – and little ones a tremendous amount of fun. The Jocolino children's shower can be attached or detached at any time.

Do you live with a gang of little rascals and are you never safe from surprises? Wonderful! This colourful bathroom is inspired by the wishes and needs of your family. In day-to-day life, it becomes an oasis with "hygge" influences and an inspirational retreat with every aspect of versatility and functionality taken into consideration. It's not a status symbol – it's wanting to be filled with life. Your life.

Welcome to the wellbeing wonderland.

This place only has one rule: Positive energy and joy for all! The Pulsify S Showerpipe is made to free families from their routines and enable them to enjoy glorious and indulgent showering. A shelf is integrated into the thermostat to ensure all bathroom toiletries are within reach.

Natural materials, smart storage options, and a playful use of colours and plants make this room the perfect family bathroom.

Magic cleaning trick!

The SmartClean glaze for easy cleaning.

This is where design ceramics meet economical mixer technology and furniture brimming with storage space. The Xelu Q wash basin makes everyday family life run so much more smoothly. The softly shaped inner basin offers plenty of space as the SoftCube shape is harmoniously coordinated with the Xelu Q vanity unit. The bathroom furniture with intelligent dividers in the drawers allows you to organise everyday life with a smile. Tecturis S basin mixers with CoolStart and EcoSmart+ help you to cut down on consuming valuable resources. Certified raw materials and the timeless style are a clear commitment to more sustainability, every day.

Find out more about EcoSmart.

Peter Ippolito, architect of the family bathroom

“In this bathroom, we have created a lively, natural, and homey place of wellbeing for families who see their home as a source of joy, serenity, and security.”

Example calculation: A four-person household that heats water with gas can expect the following positive results when using these bathroom furnishings: Costs can be cut by up to € 160* per year with the Tecturis S 150 Fine EcoSmart+/CoolStart basin mixer and by up to € 493* per year with the Pulsify S 260 2jet EcoSmart Showerpipe.

* Calculation based on the following: Four-person household in Germany, shower time of 5 min per day and per person, 365 days per year. The costs for the calculation are € 0.18 per kWh for gas and € 6.70 per 1000 l for water. Compared to hansgrohe products without EcoSmart and CoolStart.

Dream bathroom for world explorers

Feels like vacation – 365 days a year

Wouldn't it be wonderful if going to the bathroom felt like a trip to some beautiful destination? With the right bathroom concept, you can make this dream come true. Welcome to an elegant cosmos that combines design with personality and sustainability with style. This dream bathroom is designed for people who want balance and love modern design.

The way the world feels – your world

The Tecturis E mixer with EcoSmart+ makes a bold design statement and features sustainable inner workings. It consumes up to 20% less water compared to standard EcoSmart mixers – without compromising on comfort. To stop and start the water and set the temperature, you simply use the Select button on the edge of the basin.

The Xelu Q bathroom furniture pieces look elegant in Diamond Grey. Soft-close mechanisms and structured interiors ensure a relaxed bathroom experience. And a slim space-saving siphon creates even more room for bathroom items.

Find out more about EcoSmart.

Matt Black, masculine, micro-soft

The Pulsify E overhead shower in the square model pampers you with PowderRain. An all-round pleasant water experience – almost like being in the ocean. The purist ShowerSelect Comfort concealed thermostat is visually striking and enables users to intuitively operate all shower elements.

In the hansgrohe design language, "Q" means geometric design with rounded edges. So the rimless EluPura Q toilet can be perfectly paired with the Xelu Q wash basin, for example.

Peter Ippolito, architect of the world explorer bathroom

"A bathroom for friends of the modern, tidy interior. The distinctive ambience is created through the unique combination of shapes, colours, and materials."

Dream bathroom for fans of industrial design

For the organised days. And all the rest

Want your bathroom to be more than a combination of mixers, ceramics, and tiles? We get it. This is your portal to a world full of inspiration, where laughter and love fill the air. This hideaway has settled into the rhythm of life and celebrates relaxed moments and happy times. This is a place where everyone can charge their inner batteries, leave their cares behind or even cause chaos every once in a while.

All areas beautifully harmonise in this ambience. The SoftCube design creates a tidy framework for the wash basin, mirror, and toilet. The Vernis Shape EcoSmart Showerpipe and the accessories are designed in Matt Black and round off the bold look. As does the Rebris E mixer, which puts people in good spirits at the washplace. Did we mention it's resource-efficient thanks to EcoSmart+ and CoolStart? The turquoise wallpaper adds radiance to the room, while the grey console and dark XXL tiles provide contrast and ground the space.

HygieneEffect
Glaze against
bacterial growth*

(*Exclusively Escherichia coli ATCC 8739 and Salmonella enterica ATCC 13076, test ISO 22196: 2011-08)

Practical bathroom solutions in a confidently stylish ambience

The Showerpipe consists of an overhead and hand shower plus a thermostat. The cubic design elements are timeless classics that lend the room its charm. Concrete-effect plaster separates the shower from the rest and gives it a spacious feel. Main take-away: Emotions are allowed to be fully felt in this dream bathroom.

Your bathroom becomes a feel-good oasis with the Vernis Shape EcoSmart shower pipe. The stylish RainDrain shower channel ensures smooth drainage in the floor-level shower.

Daddy Sven and daughter Emma: Both fans of the industrial style

“It’s often chaotic at our place. But you don’t really notice it thanks to the clear structure of the bathroom. I get plenty of moments of tranquillity here – especially under my dream shower.”

Our dream bathroom for fans of industrial

1	Xarita Lite Q Mirror with lateral LED lights 800/30 IR Sensor	# 54976670
2	Rebris E Single lever basin mixer 110 CoolStart EcoSmart+ with pop-up waste set	# 72589670
3	Xanuia Q Countertop basin ground 800/480 with tap hole and overflow	# 60250450

Add colour to your bathroom!

FinishPlus colours create unique accents in the shower, at the washplace, and in the toilet area. A bronze-coloured shower system is a design highlight, a matt white mixer is a fresh-faced head-turner. hansgrohe thermostats and showers can be matt black or gold-coloured. If the colour of the wallbar, shower hose, and accessories matches, it adds style to the whole bathroom – and makes it look new.

Matt Black

provides a contrast and takes the bathroom design back to basics.

Matt White

is versatile and creates unconventional freshness.

Brushed Bronze

exudes subtle flair and looks elegant with white and natural tones.

Polished Gold Optic

enchants lovers of extravagant design and brings glamour to the bathroom.

Chrome

is a timeless classic that makes the bathroom shine.

Brushed Black Chrome

has an air of sophistication thanks to its dark appearance.

Taste isn't a matter of layout.

Small bathroom made large

We know many of our customers need to make do with just a few square metres of bathroom space. But even these areas can be transformed into a refuge for glorious relaxation. Nifty furnishing tricks, creative hacks, and a clever choice of products really help here. You'll be surprised how great, appealing, and tidy a mini-bathroom or small guest toilet can look!

“hansgrohe can transform even small bathrooms and guest toilets into a feel-good oasis. Furniture pieces with storage space keep things tidy, while special designs and formats provide room to move, and FinishPlus colours add creative accents.”

A harmonious colour concept and perfectly coordinated shapes can really open up a small bathroom and make it shine. Big picture: The washplace and toilet look fantastic in a streamlined, rounded design. Whether in Brushed Bronze or Chrome, the basin mixer, bathroom accessories, and individual decorative elements create elegant accents. And to top it all off, the LED mirror puts people and their surroundings in the perfect light.

2	Tecturis S Single lever basin mixer 80 CoolStart EcoSmart+ without waste set	# 73301140
3	Xelu Q Handrinse basin with shelf right 360/250 with tap hole without overflow, SmartClean	# 61084450
4	Xelu Q Vanity unit High Gloss White 340/245 for handrinse basin, door hinge left	# 54011700
5	AddStoris Liquid soap dispenser	# 41745140
6	EluPura S Wall hung WC Set 540 AquaFall Flush, SmartClean with WC seat and cover with SoftClose and QuickRelease	# 61119450
7	AddStoris Toilet paper holder with cover	# 41753140

Xelu Q wash basins and furniture are beautiful and practical, even in small sizes. Lots of bathroom items can call the glossy white vanity unit home, and the narrow handrinse basin features a shelf on the right. The Tecturis S mixer has a slimline design, making it the perfect fit.

More small-scale bathrooms

How does a mini-bathroom become your favourite room in the house? With a bright atmosphere, sophisticated interior, and high-quality bathroom design that really resonates, even in a very small space.

Left: Xevolos ceramics and furniture are high quality with a great design that looks elegant in small spaces. Vanity unit in Matt Sand Beige, Metropol single-hole mixer in Matt Black.

Right: Even small bathrooms can have a holistic design in a consistent hansgrohe design language and colour. Xanuia Q handrinse basin with Xarita Lite Q mirror, Rebris S mixer with Flowstar designer siphon, EluPura Original toilet with AddStoris paper holder.

Long and narrow bathrooms

Even unusual layouts, such as small but mighty long and narrow bathrooms, can be made to look bright and tidy. They are often found in older buildings and are usually very dark. But with skilful renovation and the right furnishings, they can be transformed into a light, airy, and tasteful oasis.

Left: Bright colours, natural materials, and a large Xarita Lite S LED mirror bathe the bathroom in a cosy atmosphere. A Vernis Blend shower set provides showering enjoyment. The EluPura Original toilet and bidet are designed to match the Xanuia Q wash basin and create plenty of room to move. Single-hole mixer: Rebris S.

Five modern space-saving tips and tricks

1

Open, welcoming design

Having subtle wallpaper or walls painted in pastel shades creates a charming and bright ambience. Using colour to accentuate zones in the shower or at the washplace ensures a cosier atmosphere, while matching tiles on the walls and flooring suggest spaciousness. Avoid room dividers or a dark design throughout.

2

Good lighting

If you have to get by without windows, and therefore sunshine, you can create a bright and breezy atmosphere with the right lighting. LED mirrors become mood-boosters, while also making the space look bigger. Different lighting zones add warmth and depth. Avoid dim lamps and a lack of mirrors.

3

Sophisticated interior design

Miniature bathrooms need intelligent solutions, such as furniture with lots of storage space, so that anything “unruly” is kept out of sight. Ceramics, furniture, and mirrors designed in the same shape, e.g. round, look harmonious. Natural materials such as wood, bamboo or stone add elegance. Avoid XXL furniture, mismatched design, and low-quality products.

4

High-quality modern design

Minimalist mixers and showers, wall-mounted toilets, and linear shelves: The more stripped-back the look, the more room there is to breathe, move, and feel good. With narrow wash basins, a shelf around the tap hole provides space. Avoid ornate mixers, outdated shower design, and chunky wash basins.

5

Appropriate accessories

From soap dispensers to toilet brush holders, shelves to niches recessed into the wall: hansgrohe offers accessories in coordinated shapes and colours. AddStoris, WallStoris, and XtraStoris keep everything nice and tidy and in its place for a stylish overall look. Textiles in similar tones also add a sense of calm to the space.

Showers, accessories, shower drains

Incomparable shower experiences

Our brand-name products bring more joy, sensuality, and variety to the bathroom routine of countless people around the globe. For many, hansgrohe is synonymous with showering. Because our world of showers is like no other and our variety of spray modes is impressive. Because we impress people with award-winning shower design and intuitive water controls. hansgrohe is also all about resource conservation, which saves money. How? Turn the pages to find out.

Welcome to the home spa.

From a fine mist out of the hand shower to a sumptuous summer downpour out of the overhead shower, water can be made to feel so different! Our spray modes refresh and relax, massage and caress. No matter the size of the showerplace, hansgrohe showers make you feel so good.

Learn about our spray modes.

According to a study*, nine out of ten consumers agree:

"PowderRain offers the best shower experience of all time."

*1500 customers tested the PowderRain spray mode in 2018 with trnd, an interactive marketing community in Europe.

PowderRain adds a layer of delicateness to your enjoyable shower

PowderRain. Thousands of ultrafine droplets that wrap the body in a coat of wellbeing. People can let the world around them disappear, wash away their daily woes, and recharge their inner batteries in this ultra-gentle water cocoon. For a soft, sensual start to the day or a pamper session after a stressful day. The hansgrohe spray researchers offered their extensive water expertise to create these whisper-quiet micro-droplets. PowderRain can be found bubbling out of our Rainfinity, Raindance with PowderRain, and Pulsify shower ranges.

Massage effect? Powerful boost of freshness? Relaxed summer rain? Kneipp therapy? Our multi-spray shower heads pamper just the way you like it.

hansgrohe is up there with the best in terms of conserving resources.

Developing premium showers for individual wellbeing is our speciality. With hansgrohe, showering also means a really enjoyable experience with low water and energy consumption. Our EcoSmart showers save up to 40 % water, while EcoSmart+ showers save as much as 60 % compared to our showers without this efficient water-saving technology. And it pays off, at home, in hotels, in spas.

EcoSmart showers save up to 40 % water, while EcoSmart+ showers save as much as 60 %.

Find out more
about EcoSmart.

**Simply
sustainable!**

Planet Edition. Pure showering enjoyment. Pure conscience.

This shower range is beautifully sustainable. With parts made of recycled plastic, it contributes to the circular economy. Thanks to EcoSmart+, it consumes just 6 l/min. In 2023, the combination of hand shower, shower hose, and accessories won the German Ecodesign Award, the country's highest state award for ecological design. That's how well environmental awareness and cost effectiveness work together!

Step-by-step guide to make a dream shower come true

1

Define your design style and plan your shower area

Define the style for your chosen products, i.e. modern or classic. We recommend ensuring the mixers in the shower look like the ones at the washplace, on the bath tub, and by the toilet/on the bidet. Matt Black or Polished Gold Optic? You are completely free to choose the design. You can also pick the perfect place for your dream shower in the bathroom.

> Page 28

2

Choose the installation type and product combination

- Do you want a large rain shower, the ability to control your shower experience using a minimalist design element, and the option for the technology to disappear out of sight? Check out our concealed installation models.
- Do you want to have two showers with a thermostat installed quickly and easily? Then go for our all-in-one exposed installation solution: The Showerpipe.
- Shower sets consisting of a hand shower, wallbar, and shower hose plus exposed installation mixer or thermostat are also quick to install.
- With a shower set, you can choose a matching combination of hand shower, hose, and bar.

> Page 60

3

Find the right shower head(s)

Round (S), Square (E), SoftCube (Q): hansgrohe offers many shapes, sizes, and colours for the dream shower. Hand shower, body spray, children's shower, dog shower? We've got them all. An XXL overhead shower for all-round pampering and indulgent showering? That, too. FinishPlus surface finish designs in Matt White or Brushed Bronze are sure to add unique accents.

> Page 62

4

Choose the right shower control

Do you want to be the conductor of your new and indulgent shower? With an intuitive way to turn it on and off at the touch of a button and gently control it with dials? With a shower mixer or safe comfort thermostat and integrated shelf? Choose your favourite options. A tip for pairing products: Go for products with the same colour and design in all areas of the bathroom.

> Page 84

5

Find a shower drain channel

RainDrain is the magic word for powerful drainage technology in the shower. With shower drain channels and floor drains featuring elegant designs in different sizes and surface finishes, seamless design is definitely an option for your new spa temple.

> Page 80

6

Add shower accessories and other extras

Our extras blend in perfectly with your style world, while also creating more storage space. Shower toiletries can be placed in a recessed wall niche or on a corner soap dish. From bronze-coloured shower hoses to matte-white shower holders to secure grab bars, hansgrohe accessories complete your dream bathroom.

> Page 148

Installation options for the shower

Concealed installation – who is it for?

Fans of minimalist design. It offers accessibility and cuts down on the risk of bumping into things – perfect for multi-generational bathrooms. Anything you don't want "out in the open" can be hidden behind the wall. To do this, the wall needs to be opened up. It is therefore a great option for new builds or extensive renovations. Important: Leave this job to the sanitation experts who know how to install the iBox universal 2 and connect the correct pre-fab sets.

Elegant shower system with the PowderRain overhead shower

Concealed solutions ensure a tidy look for the shower or bath tub and allow more room to move. How is this feeling of spaciousness created? By having the water technology installed in the wall and flat pre-fab sets controlling the shower heads. The Brushed Bronze ambience consists of a Rainfinity overhead shower, Rainfinity shower set, and ShowerSelect Comfort E concealed thermostat, which creates a home spa with the perfect shape, colour, and functionality.

Concealed installation:
The technology that can be hidden in the wall for a minimalist look

A modern boost of freshness with a hand shower

The hand shower is held by a porter set, and the hose is screwed onto the wall connection. A flat, minimalist solution breathes new life into the bathroom, especially as everything is in Matt White. This combination consists of a three-spray Pulsify S hand shower and a DuoTurn Q concealed mixer for one function.

Exposed installation – who is it for?

People who want to modernise their shower the simple and unique way, but who don't want a full renovation. The comfort solutions are simply installed on existing water connections. The fixing dimensions are standard sizes to ensure all systems work in every bathroom. After all, even rental apartments deserve a refresh every once in a while, and Showerpipes can be quickly removed and replaced with shiny new ones.

Showerpipe with overhead shower: The light renovation option

It's the quickest way to a large rain shower, as the Showerpipe comes pre-assembled and is installed on existing connections. This saves time, effort, and money. The complete system enhances the bathroom and features two shower heads with a thermostat. When it comes to design and functionality, everything is perfectly coordinated. The Matt Black Vernis 240 Showerpipe consists of an overhead and hand shower with a hose and riser pipe as well as a thermostat.

Sleek setup with DIY elements

When planning your shower, you have the option to mix and match beautiful and practical components in your shower set. This chrome colour scheme pairs the round Pulsify S hand shower with the ShowerTablet Select exposed thermostat. Matt White WallStoris accessories provide additional storage space. The hand shower is held in place with a WallStoris wallbar, which acts as a minimalist shower rail – a cost-effective solution.

Exposed installation:
Quickly and easily
take the shower to
the next level

The XXL shower experience

From small cubicles to spacious shower temples, hansgrohe has the right overhead shower for every showerplace. Bronze or Matt Black, one spray mode or several – it's all a matter of taste.

Design highlight:
Rainfinity overhead shower
with PowderRain

The Rainfinity 360, our most lavish overhead shower, looks magnificent. Its concave spray disc wraps the entire body in a cocoon of thousands of microfine droplets. Surface: Brushed Bronze.

Get pulses racing with Pulsify overhead showers

The bathroom's look can be personalised with a square Pulsify E or a round Pulsify S. The ultrafine PowderRain spray mode once again ensures a unique sense of wellbeing in this overhead shower. Available in several colours (pictured here: Matt Black).

The size of the overhead shower needs to suit the shower area, otherwise the sprays will splatter everywhere. Tip: Seek expert advice from your specialist retailer.

Factors to consider

- Size of the shower area
- Diameter of the shower
- Throw range of the water sprays
- Pressure conditions

Which shower head for which shower area? (Examples)

- 90 x 90 cm: Pulsify S 260, Rainfinity 250/360
- 100 x 100 cm: Pulsify S 260, Rainfinity 250
- 120 x 100 cm and larger: Pulsify S 260

The gloriously delicate Pulsify S rain shower has a diameter of 260 mm and is affixed to the wall using a shower arm (a model for ceiling mounting is also available). A Matt White set with manual shower is made to match.

Shower system with overhead shower and hand shower

Stylish pamper packages

Next level: The Rainfinity Showerpipe

This Showerpipe combines two PowderRain shower heads and other premium components into one product. The convenient all-in-one shower system consists of a Rainfinity overhead and hand shower and a ShowerTablet thermostat with shelf – all in Matt White. The whole system is attached to existing connections, so each water source does not need to be installed separately.

Shower pipes: Be instantly transported to a feel-good island with rain shower

In the delightful world of Raindance, all shower heads have large spray discs with several spray modes in their hand showers and overhead showers. The sensual Pulsify also pampers body and mind day after day. The Vernis Shape shines in a geometric design: The square overhead shower and round hand shower make for an excellent wellness duo at an attractive price. With a range of surface finishes and product combinations, our Showerpipes fulfill the desire for a unique interior.

Pulsify S Showerpipe in Matt White

Pulsify S Puro in Matt Black

Vernis Shape Showerpipe 240 in Chrome

All the enjoyment, very little consumption

Premium showers like the global bestseller Raindance turn personal hygiene into a highly indulgent experience. Our shower heads enhance every bathroom and impress users with fascinating spray modes, comfort features, and ergonomic designs – hand on heart! hansgrohe shower and design expertise dates back to 1901, and our water-saving technologies support mindful lifestyles.

Pulsify hand showers: Transforming water into wellbeing

Organic round, masculine square or minimalist manual: No matter the design, Pulsify pampers with delicate PowderRain. The Pulsify shower set, a complete package that includes a hand shower with hose and wallbar, is a particularly attractive option here.

Rainfinity: A fusion of hand shower and shelf

Nice and tidy: This beautiful combination of shower shelf plus integrated hose connection and handshower holder creates a shower ambience in a cutting-edge design. FinishPlus surface finish: Brushed Bronze.

Flexible and lightweight, stylish and sustainable

Showers with that extra-special something

The feel: Warm, fabric-like, delightful.
The look: Sensational. Designflex creates a cosy vibe. The shower hose gets its attractive look from a tight weave technique with colourful yarns that create new, ever-changing patterns. It is waterproof, water-repellent, and can be cleaned in the dishwasher. As a small but trend-setting detail, the yarn is made of recycled PET plastic bottles from the Black Forest in Germany, making this a sustainable purchase.

Simply
sustainable!

Designflex fits all standard hand showers – simply screw it on. The innovative shower hose reflects the FinishPlus palette found in hansgrohe showers, mixers, and accessories – for an elegant and harmonious colour scheme in the bathroom.

Special hand showers with an easy attachment: How our most precious family members get clean

Jocolino: Three animal designs, two spray modes, one happy family

Our children's hand shower transforms the bathroom into the cleanest playground in the world. And so personal hygiene, often feared by little ones, becomes a happy time. The best part is when Mum and Dad tell epic tales about zebras, lions, and crocodiles during shower or bath time.

DogShower: Less stress, less chaos, more loving looks

We suffer alongside our furry friends when they get stressed out about shower time. But there is another way to groom pets. Our dog shower was developed with dog experts and psychologists. It strokes our four-legged companion clean with water. The massage effect of its nozzles does the dog so much good that it relaxes, and so does its owner.

Special shower features

Adjustable Shower Head

The overhead shower's angle can be adjusted to individually adapt the water spray.

Fast Drain

The fast drainage function on the shower head reduces dripping after you've showered.

XXL Performance

The shower distributes the water over a large area so that your entire body is cocooned by feel-good droplets.

Select

The simple press of a button allows you to playfully regulate the water flow, the shower head or the spray mode.

QuickClean

Limescale deposits and dirt can be simply rubbed off the spray disc using a finger. For much less cleaning effort!

Powerful design drains for floor-level shower

Add the stylish finishing touches to the walk-in shower with these drain systems, which are installed flush with the flooring for more comfort and a better look. Product ranges such as RainDrain Minimalistic and RainDrain Flex make used water subtly and efficiently disappear beneath the flooring. We offer a wide choice, different lengths up to 160 cm, and models that can be shortened. Only high-quality siphon and drain technology will do when it comes to safe drainage that stands the test of time. hansgrohe quality sets a standard you can fully rely on.

The perfect shower layout from top to bottom

Whether in renovations or new builds, RainDrain is the perfect drain technology for consistent bathroom concepts. Shower drain channels or point drains turn the shower oasis into a holistic design zone, as their colour is made to match the surface finishes on our mixers and showers.

RainDrain Rock – for natural stone up to 40 mm thick

RainDrain Flex – sleek in seven surface finishes

RainDrain Match – rotatable design cover, can be tiled on the back

RainDrain point drains

They are called RainDrain Spot, RainDrain Brilliance, and RainDrain Point. They blend seamlessly into their surroundings. With covers in tasteful designs, they add the perfect finishing touches to the dream shower. Available in Brushed Stainless Steel, with tiles or in a Matt Black surface finish, and in sizes 10 x 10 cm or 15 x 15 cm. All point drains come with a pre-assembled sealing fleece, hair catcher, and siphon.

RainDrain Point – beautiful and compact floor drain

Dryphon: Easy to clean with an excellent outflow performance

hansgrohe shower drain channels fitted with Dryphon technology minimise cleaning effort, as the powerful siphons prevent hair and dirt from accumulating in the drain. When it comes to cleaning, this saves so much time and frustration, year after year.

Dryphon is a mechanical odour trap that blocks all unpleasant smells. Once the water is drained, the opening with the high-tech membrane immediately closes to prevent any direct connection to the sewer.

With an extraordinary drainage capacity of up to 60 l/min, Dryphon handles water from large overhead showers at high speeds, thus exceeding standard values.

Find out more about Dryphon.

So easy to clean

- Release the cover using the tool that comes with the product and remove residue
- Remove and clean Dryphon (the odour trap is easy to remove, even after installation)

Thermostats, mixers

Simply control the water and enjoy the comfort

Sudden fluctuations in water temperature and water flow can be unpleasant. A thermostat instantly responds to changes and counteracts them. We offer a wide range of water regulators and shower mixers, from the simple exposed installation mixer for one shower head through to the concealed thermostat. All shower controls are high quality and intuitive to use. The same goes for hansgrohe basin mixers, which we will cover later on.

A symphony of indulgent showering with so much space

The shape of the flat ShowerSelect Comfort thermostat blends with the shower space. It looks tidy, gives the person showering an enormous range of motion, and enhances the bathroom. Available in three puristic design shapes – Square (E), Round (S), and SoftCube (Q) – and all FinishPlus surface finishes. With minimalist controls like these, everything that looks “bulky” disappears entirely in the shower wall. Recommended in new builds and renovations.

Why choose concealed installation?

Installations with flat “pre-fab sets” impress people because they require little space and are easy to clean. What’s more, they offer good sound absorption, which also makes the water experiences low-noise. Concealed thermostats can control between two and four functions – unless you opt for the RainSelect superstar, which can handle up to five functions.

When the design is perfectly integrated into the wall and the user comfort is silky smooth, you know you’ve got RainSelect – our central control board for the home spa. The design thermostat’s slim silhouette, high-quality surface finish, and elegant shape define the space it’s placed in. The 70 x 70 mm Select buttons control up to five water sources with one touch. Available in the White, Black, and Chrome finishes.

ShowerSelect Comfort thermostat – a work of art for the wall, with a shadow gap as an extra design element

DuoTurn mixer: Turn up the showering comfort

The DuoTurn shower mixer turns on soothing water experiences and allows everyday life to fade into the background. With one turn, users can switch the overhead shower to the hand shower or set the water temperature and water flow – a minimalist solution with maximum ease of use.

iBox universal basic set: Invisible technology, proven millions of times over

With concealed installation, the plumber starts by installing the bestselling hansgrohe iBox universal 2 in the wall. Our pre-fab sets are then mounted on this base set.

Increase instant happiness in the shower with comfort solutions

A hansgrohe exposed thermostat can be installed on existing water connections in a few simple steps. The look of its clear, puristic design works well in any shower or bath tub, while the modern water controls make people feel safe with the water flowing at a constant feel-good temperature.

Thermostats – good-looking and designed for universal use

When it comes to water controls such as the ShowerTablet Select, an integrated shelf and hand shower holder ensure maximum comfort. With its glass shelf, this multifunctional design thermostat offers plenty of space for toiletries – so they are always within reach for the person in the shower or a bath. The intuitive Select button starts and stops the water flow conveniently with just one touch.

Technologies for more comfort

Select

The simple press of a button allows you to playfully regulate the water flow, the shower head or the spray mode.

Rotatable Bath Spout

The bath tub filler can be rotated under the thermostat when not in use. Nice and tidy.

Features for more sustainability

EcoStop

Full control when saving water. The EcoStop function initially reduces the water flow to a maximum of 10 l/min.

Water flow control

Actively regulate water consumption – the dial can be used to set the water flow.

Features for more safety

CoolContact

Thermostat with innovative cooling technology that protects you against unpleasant touches or burns.

SafetyStop

Safety lock above 40 °C – temperature limitation to prevent the flow of excessively hot water.

Feeling good in the ComfortZone

Basin mixers – beautiful, functional, versatile

We treat our customers to award-winning design quality. Sophisticated features ensure more comfort and ease of use. hansgrohe mixers help to save water and energy. Find the perfect mixer [here](#).

Mixer design: Choose the shape, size, and colour

Bold and linear, organic and round, minimalist and slimline? This all depends on personal taste and the other shapes in the bathroom interior. For the perfect look and functionality, it is important that the basin mixer's height and spout length is a great match for the wash basin. Ultimately, you want to see and feel a dream team here (we call it ExcellentFit). Even better when all mixers come from the same range. Mixers in FinishPlus colours also create exceptional accents.

Choose the right installation type for the wash basin

Basin mixers can be freestanding or mounted on a wash basin or wall. Their water spray can cascade down into a small, large, deep or shallow vanity. hansgrohe has the fitting solution for every situation and every requirement. Let's make the washplace more than somewhere to brush teeth or wash hands.

Freestanding: Tall mixer behind a countertop basin

Here a Vivenis single-hole mixer in Matt White stands tall behind a Xuniva S countertop basin – a graceful installation option that looks lovely.

Freestanding: Mixer on wash basin with tap hole bench

Here an exclusive Finoris single-hole mixer is installed in the tap hole of a Xevolos E countertop basin – a traditional design that offers additional storage space.

Pulling the plug in the wash basin:

The drain valve can be opened and closed using a pull rod or push-open technology.

Wall mounting: A concealed installation mixer above the ceramics

Here the bold spout design of a Metropol wall-mounted mixer is operated using controls – an elegant option that guarantees plenty of room to move.

hansgrohe ExcellentFit: Wash basins and mixers that work well together

It's annoying when the wash basin and mixer aren't a good fit – it can cause water to splatter where it shouldn't or it can create a look that isn't quite right. So how do you figure out what works well and looks good together? We want our customers to have user-friendly dream combinations, so we have tested a variety of mixer and wash basin duos and combinations with other manufacturers' products at our Technical Service Center. Those that pass the test are listed in hansgrohe ExcellentFit, the matrix of all washplace dream teams. Download this information from our website now.

Bringing together what belongs together

hansgrohe mixers are available in different ComfortZone heights to allow plenty of space between the wash basin and mixer and ensure everyone has the perfect water experience when washing their hands. What a way to wow with bathroom design. From highrisers for countertop basins to wall-mounted basin mixers, you can find the perfect pairing quickly and easily with hansgrohe ExcellentFit.

Find the perfect pairing of
mixer and ceramics.

Less water, better feeling

EcoSmart

Saving resources with pleasure! The clever EcoSmart technology reduces the water consumption of hansgrohe lavatory mixers to no more than 5 l/min*, while EcoSmart+ products consume even less at a maximum of just 4 l/min*. Integrated flow limitation ensures a conscious use of water and energy required to heat the water. All without a loss of comfort.

*at 3 bar

Find out more about EcoSmart.

CoolStart

This energy-saving mixer only allows hot water to flow when the lever is actively moved – whereas standard mixers immediately consume energy when the handle is opened in the basic position. CoolStart helps to conserve resources and cut CO₂e emissions and costs.

Find out more about CoolStart.

Intelligent technologies, clever functions

Select

Water on, water off: One push of a button is all it takes to control the water flow at the wash basin.

AirPower

Mixes air into the water. For a soft, lower-splash water spray and full, light droplets.

QuickClean

Limescale deposits and dirt can be simply rubbed off the spray disc using a finger. For much less cleaning effort!

The hands-free electronic mixer

The sensor on this mixer acts like a motion sensor as it responds to changes in the infrared rays and immediately turns off the water once it stops detecting warmth from hands. This solution is economical, eco-friendly, contactless, and hygienic – perfect for public spaces.

The pull-out mixer

Washing hair or bathing baby in the wash basin? Filling tall containers or effortlessly cleaning ceramics? All this becomes a pure joy with a pull-out spray. The stylish Finoris mixer meets all needs at the wash basin – with minimalist design, maximum flexibility, and two spray modes in the shower, including micro-soft PowderRain.

A mixer category for complete bathroom harmony

hansgrohe mixer categories are known for their typical design that can be applied to all areas of the bathroom, so you can have the same design language at the washplace and showerplace as well as around the bath tub and bidet – this strikes an aesthetic balance with all mixers matching.

Metropol mixers are known for bold precision. With their geometric clarity, this high-quality hansgrohe range creates a perfect visual connection to all areas of the bathroom. FinishPlus colour: Brushed Bronze.

Bold statements at the bath tub

Metropol design unit with Raindance Select S hand shower (top): The shower hose disappears into the rim for a minimalist look. Once here, the hansgrohe sBox enables it to be smoothly pulled out and retracted. Colour: Brushed Black Chrome.

Another option: The floor-standing Metropol mixer (right) that holds a manual shower and looks elegant as it towers high beside the bath tub. Colour: Matt Black.

Wash basins, bathroom furniture, mirrors

Pure bliss at the wash basin

We all want effective routines that make the everyday feel effortless. When the design, size, and functionality of the wash basin and bathroom furniture, mixer and mirror match, it has many lovely benefits. After all, looks and sensuality, interaction and joy go hand in hand at the washplace. You can expect consistent and long-lasting solutions from hansgrohe. We create unique dream washplaces from top to bottom. For the main bathroom or guest toilet and for budgets of all sizes.

Plan your dream washplace step by step

Measure your washplace and define your design style

First, a list of measurements is required. Once the available space has been measured, you can define the design style. Modern or traditional? If possible, think about the design concept for the entire bathroom to keep the style consistent. Then find the perfect ceramics.

> Page 28

2

Determine the wash basin's installation type, size, and shape

From handrinse basins in the guest bathroom to double wash basins, the hansgrohe range includes different types, sizes, and designs. It looks harmonious when the washplace, toilet, and bidet area all feature products in the same style, for example SoftCube (Q) or Round (S). We also offer universal shapes that look good wherever they are. It goes without saying that all products can be matched to suit personal taste.

> Page 116

Find the perfect wash basin furniture

Choosing furniture that has been perfectly coordinated with the wash basin creates an architectural design unit and extra storage space. The size and shape of the vanity unit needs to match the wash basin and suit the installation type, and its surface finish needs to work well with the bathroom's interior.

> Page 120

4 Arrange a tidy system for the furniture

hangrohe bathroom furniture can be fitted with IntraStoris, a smart interior divider solution that efficiently organizes all drawers and cabinet compartments.

> from Page 123

5

5 Add a matching mirror

Xarita and Xarita Lite are high-quality framed, practical helpers for all washplace routines as well as being atmospheric light sources in the bathroom. They can be conveniently operated via a wall switch, IR sensor or capacitive touch sensor.

> Page 134

6 Select the perfect mixer for the ceramics

For perfect water experiences, the basin mixer needs to be a great fit for the wash basin. You can find our recommendations for dynamic duos under hangrohe ExcellentFit. For an overall aesthetic appearance, we recommend emulating the shape and colour of the mixer in the shower, bath tub, and bidet.

> Page 94

7

7 Add accessories

All that's left is the soap dish, toothbrush cup and other accessories. Find the perfect finishing touches for the washplace with matching accessories from the AddStoris or WallStoris ranges. Tip: Coordinate the accessories with the colour of the mixer.

> Page 148

Different shapes, types, and sizes

Delicate countertop vanity or spacious double wash basin

hansgrohe ceramics impress people with their beautiful geometry and high quality. Our shapes and designs meet all needs, and our wash basins work well with mixers, mirrors, toilets, and accessories with the same letter in their brand name. People are, of course, free to also create any combination to suit individual tastes.

hansgrohe wash basins with the design suffix “E” in their brand name feature clean lines. This design is linear, bold, and elegantly streamlined. This is the style of the ceramics in the **Xevolos E** range, with their large inner basin and plenty of shelf space for maximum comfort.

With **Xuniva** countertop basins in four different shapes (below), there are so many design directions to go in.

Q equals SoftCube design with rounded corners.

S equals round, flowing, and organic design.

D equals oval elegance with elongated curves.

U equals RaceTrack with dynamic curves.

hansgrohe ceramics in the Q design are linear and geometric with rounded edges. With its large tap hole bench, the Xanuvia Q wash basin provides plenty of space for bathroom items and room to move during all routines, while the rim prevents water from overflowing.

Different installation types

Overflow hole
The all-important safety stop when filling the wash basin.

Wash basin (wall-mounted)

Wall-mounted wash basin with vanity unit

Wall-mounted countertop vanity with console

Countertop vanity with console

Above counter basin

Undercounter basin

Wash basins with plenty of practical storage space

Models such as Xelu Q impress users with their slimline design and softly rounded wash basin. They offer plenty of space to store items on the tap hole bench, while models with a side shelf create additional room so that the important things are always within reach. Available in many sizes.

Find out more about
the manufacturer's
guarantee.

Long-lasting joy with our products

In addition to the legal warranty, hansgrohe offers a voluntary manufacturer's guarantee of 20 years on ceramics.

Easy to clean

SmartClean

High-quality glaze to prevent lingering dirt particles. For more hygiene and less cleaning effort.

Storage space, redefined

A strong look meets maximum comfort. With furniture designed to match our wash basins, mixers, and mirrors, the dream of the perfect washplace can become reality. Features such as soft opening and closing as well as smart interior dividers help you to get through day-to-day life with a smile.

The Xelu Q wash basin is made to fit this interior with its Xelu Q vanity unit in Dark Walnut. The towel holder and handles match the Tecturis S mixer in Chrome. Mirror: Xarita S.

The variety of hansgrohe furniture

A narrow vanity unit for the small countertop basin or an elegant console solution with plenty of shelf space? High Gloss White, Matt Diamond Grey, Natural Oak or Dark Walnut? We can offer you a wide range of products with different sizes and surface finishes. We also make towel holders, shelves, and feet in Chrome, Matt Black, and Matt White.

Wash basin and furniture combinations

Vanity unit for wash basin

Vanity unit for consoles and countertop vanities

Tall and mid-height cabinets

Where exactly are people supposed to store all the tubes, bottles, towels and other items that live in the bathroom? This is a recurring theme, especially in small bathrooms. The tall and mid-height cabinets are made of a durable material and perfect for keeping things tidy and at a minimum. And they're available in the same colour scheme as the vanity units. Please read the hansgrohe care instructions to ensure the furniture always remains beautiful and moisture-resistant.

Convenient features in hansgrohe furniture

PushOpen

These drawers and doors are extremely convenient to touch and open. Simply tap on them lightly.

AntiFingerprint

High-quality technology that combats fingerprints. For carefree morning and evening routines in the bathroom.

SoftClose

Drawers and doors close softly and quietly. All thanks to the integrated dampers.

Simply sustainable!

The wood components used in the Xevolos E and Xelu Q bathroom furniture series are PEFC certified and therefore proven to originate from ecologically, economically and socially sustainable forest management. The hansgrohe furniture lines are also DGM certified and have been awarded the following labels: "Golden M," participation in the "Climate Pact for the Furniture Industry" (CO₂ footprint), "Furniture Made in Germany," and the "Emission Label for Furniture" (category "free-standing cabinets": hansgrohe meets the requirement of emission class A).

IntraStoris interior divider system

Tidy house, tidy mind. IntraStoris ensures the large drawers and cabinet compartments in Xevolos E and Xelu Q bathroom furniture are always nice and tidy. With this practical system, everything in the bathroom pretty much sorts itself. All bathroom items are stored in the best way possible with the modules in Dark Walnut (Xevolos E) and Natural Oak (Xelu Q). The Matt Black boxes fit all hansgrohe furniture lines.

Architectural design, flawless quality

Xevolos E wash basins are all about sophisticated aesthetics and premium quality. They have an impressive geometric design, narrow edges, and a seamless look. The elegant and minimalist overall appearance is emphasised by the inner basin without overflow hole and an integrated ceramic drain cap.

These ceramics create room for all washplace needs. We offer widths of 360 to 1200 mm and the option to choose one or two wash basins. The quality and style of the mixers from the architecture-inspired Tecturis E, Finoris, and Metropol ranges are a particularly good fit here.

The perfect furniture in two steps

Xevolos E bathroom furniture: Many models, exceptional look

The architectural design language is echoed in the cubic look of the Xevolos E furniture, which is made to match the wash basins in the range. They come in different sizes and with different body finishes and front inlays so that unique accents can be created – for example, with glass, wood decor or ceramics. Thanks to the space-saving siphon, the top drawers do not need a cut-out, which creates more storage space. The user-friendly PushOpen and SoftClose mechanisms make the drawers even more comfortable and convenient to use.

For more style and storage space

Xelu Q wash basins are stylish all-rounders in the hansgrohe SoftCube shape. The slim edge and softly shaped inner basin make them eye-catching modern features in single, shared or family bathrooms. And the large tap hole bench creates plenty of shelf space. We offer the ceramics in six widths from 360 to 1200 mm. Tecturis S, Vivenis, and Talis S are all mixers that work well and look great with these wash basins.

Xelu Q vanity units are the perfect fit for your chosen wash basin. Every detail of their design has been thoroughly thought through. Bathroom items can be hidden out of sight in their large interiors, while the SoftClose function on the drawers ensures they close gently and quietly. Various surface finishes for the bodies and fronts create a washplace with a highly personal touch.

Simply
sustainable!

A more sustainable view of the world

All Xarita and Xarita Lite mirrors are CE/UKCA compliant, and the mirror glass is 100% recyclable. The mirrors are designed so that individual components can be easily swapped out and replaced. Moreover, the energy class C LEDs have a long service life and excellent colour rendering.

Mirrors

Catch glances and capture hearts

hansgrohe mirrors create feel-good lighting and good spirits in the bathroom living space. The mirror adds the perfect finishing touches to every dream washplace. When it complements the washplace in a harmonious design and format, it becomes a daily mood-booster.

The shape: Unique. hansgrohe makes the Xarita Lite range in Round (S) and SoftCube (Q); the Xarita range in Round (S) and Square (E).

The look: Magnificent. Minimalist design with high-quality frame and exquisite FinishPlus finish. Xarita Lite is available with a Matt White or Matt Black frame; Xarita with Matt White.

The size: Perfect. Made to suit a certain washplace design and specific style preferences.

In summary:

Beautiful. Xarita and Xarita Lite mirrors are design highlights in the bathroom and ensure harmonious lighting.

Convenient features in hansgrohe mirrors

Defog system

The integrated heating effectively prevents the mirror surface from fogging up – for clear vision.

SmartTouch

Simply lightly touch the icons on the mirror surface to turn various functions on and off.

TouchlessSensor

This lighting is controlled using infrared sensors. One hand motion under the mirror is all it takes.

Other benefits

Forgot to switch off? Don't worry! With our mirrors featuring an infrared sensor or SmartTouch, the auto-off function prevents the lighting and heating from remaining on unnecessarily, which helps to save energy. The memory function repeats the last light setting to ensure people are always bathed in the same light when doing make-up or shaving. In other words, hansgrohe mirrors with this feature have a good memory!

Feel-good dreams in colour

Xarita mirrors have eight atmospheric light colours ("Indirect light" button). One of five dimmable levels, from warm white to cool white, illuminates the washplace ("Direct light" button). Add a combination of Xevolos E wash basin and furniture to create a holistic dream bathroom ambience.

For the rosy moments

Choose from the eight available indirect light colours to change the mood and atmosphere of your bathroom at the touch of a button. All colours can also be dimmed.

Toilets, bidets, urinals

Beautiful feel-good places

The dream bathroom is only complete once everything around the toilet blends harmoniously with the interior design. hansgrohe offers toilets, bidets, urinals, and accessories that perfectly match the overall look – for a stylish and consistent feel. Our portfolio features long-lasting products that treat people to a great look, comfort, and low noise emissions. They make the bathroom or guest toilet a nicer place and ensure low cleaning effort with innovative technology.

Two beautiful lines, many benefits

Our EluPura and EluPura Original ranges offer the perfect toilets for unique bathroom styles and interiors. Both are available in two design languages: Round (S) and SoftCube (Q). Their rimless design makes them less susceptible to germs compared to standard toilets.

EluPura:
Elegant, high quality, and
stylish in every detail

These toilets round off the modern bathroom and please discerning design fans. The hidden wall mounting creates a seamless appearance perfect for rooms with a minimalist design.

There is also the option to give all hansgrohe toilets a further upgrade, with comfort features such as SoftClose and QuickRelease as well as special glazes to make the toilet even more hygienic (turn to the next page for an overview).

EluPura Original:
Price-conscious and perfect
for every room concept

The range includes toilets and bidets for wall-mounted installation as well as floor-standing models. There are also urinals with different solutions for the water supply and accessories such as seats, lids, flushing tanks, and urinal dividers. We make these ceramics in the S and Q designs for more harmony in the bathroom. The attachment is openly accessible to make installation easy.

Long-lasting joy with our products

In addition to the legal warranty, hansgrohe offers a voluntary manufacturer's guarantee of 20 years on ceramics.

Find out more about the manufacturer's guarantee.

EcoSmart

hansgrohe toilets can achieve excellent flushing results with only 4.5 litres per flush (suitable flush tank required). A quick flush, done by pressing the small flush plate button, can even manage with just 3 litres. Good for the environment, good for your wallet!

Find out more about EcoSmart.

Simply sustainable!

The toilet is an essential component in the harmonious design of the bathroom or guest toilet. EluPura toilets blend seamlessly into any room.

Strong performance

hansgrohe flush technologies – powerful, low-noise, efficient

AquaHelix Flush

This sophisticated water vortex technology powerfully and quietly cleans the toilet's inner basin. The flushing process is especially efficient and can achieve excellent results with just 4.5 l per flush (suitable flushing tank required).

AquaFall Flush

Powerful cleaning of the inner basin of the rimless toilet with a symmetrical surge of water. The flushing process is especially efficient and can achieve excellent results with just 4.5 l per flush (suitable flushing tank required).

AquaChannel Flush

Effective flushing of the inner basin with powerful, revolving water sprays. The flushing process is especially efficient and can achieve excellent results with just 4.5 l per flush (suitable flushing tank required).

Comfort features

SoftClose

Toilet cover and seat close softly and silently thanks to the dampers in the hinges.

Quick Release

This hinge system is simple to undo so that the toilet seat can be quickly removed for easy cleaning.

Hygiene features

SmartClean

High-quality glaze to prevent lingering dirt particles. For more hygiene and less cleaning effort.

HygieneEffect

This highly developed glaze prevents bacteria from multiplying on the product (exclusively Escherichia coli ATCC 8739 and Salmonella enterica ATCC 13076, test ISO 22196: 2011-08). For more hygiene and lasting comfort in the bathroom.

Bathroom accessories, wall niches

Stylish helpers for the bathroom

hangrohe accessories add more design flair, comfort, and harmony to the bathroom. High-quality towel holders, soap dispensers, shelves, and wall niches are clever assistants that ensure tidiness at the washplace, in the shower, and around the bath tub. In addition to their practical function, they add a unique look to the space. And they perfectly complement hangrohe shower and mixer categories with their timeless design. With modern surface finishes, they create beautifully colourful, harmonious accents.

XtraStoris: Wall niches for storage

Design fans who want practical, stylish, and high-quality storage options for their bathroom items appreciate XtraStoris, as the integrated storage solution creates more room to move in the shower. The waterproof system also uses the free space on the wall in the most tasteful way possible. The body and frame can be chosen in the bathroom's colours to match other hansgrohe shower products or in different surface finishes to contrast with them.

XtraStoris Minimalistic: The frameless shower niche can be installed flush with the tiles or wall design or protruding from the wall. For personal design accents in the bathroom.

XtraStoris Individual with design frame: Colours such as Matt Black work well with hansgrohe showers and mixers in the same FinishPlus hue. Pictured: Design frame in Polished Gold Optic.

XtraStoris Rock with tileable door that is easy to open and close thanks to the push-open mechanism. Pictured: Easy to clean surface finish in Matt White.

Beautifully watertight thanks to a waterproof installation set and seal liner

XtraStoris Original enables the toilet paper and toilet brush to disappear elegantly into the wall next to the toilet to save space.

From shaving mirrors to toilet paper holders with a shelf, AddStoris accessories reflect your own vision of bathroom design. FinishPlus colour: Brushed Bronze.

AddStoris: Everything always neatly within reach

From hand wash to shampoo to toothpaste, bathroom products and toiletries need some kind of system to keep everything tidy and create a harmonious look. AddStoris accessories are always on hand in the bathroom. They cut down on chaos and are a toolbox for a better look and more comfort. Their shape, colour, and style perfectly complement hansgrohe mixer and shower lines. Available in six surface finishes.

WallStoris: Tidy and decorative on the wall

Lack of storage space? This creative system tidies your bathroom must-haves. The stylish brand-quality accessories enhance every wellness zone and remain safely in place. WallStoris modules can be glued (great for renters!) or screwed to the surface, mixed and matched in countless combinations, and placed wherever works best!
