IN THE REALM OF **REIMAGINATION**,
EVERY POSSIBILITY AWAITS
EXPLORATION.

ABOUT US

With over 50 years of manufacturing expertise, Guocera, a proud member of the Hong Leong Group, has become the tile brand of choice in over 50 countries, spanning Asia-Pacific, the Middle East, Europe, and America.

Guocera's tiles adorn diverse global environments, from residential homes and commercial spaces to public infrastructure, inspiring where people live, work, and play.

Our aspiration is to remain a global leader by continually delivering value and innovation for our business partners and consumers.

ELEVATING STANDARDS EMBRACING INNOVATION

NEW PRODUCT DEVELOPMENT

We're not just manufacturers; we're visionaries. We understand consumer preferences and design trends to empower individuals to reimagine spaces of wellbeing that inspire joy and creativity.

DIGITAL TRANSFORMATION

In a world driven by technology, we embrace digital transformation at every turn. From production processes to marketing strategies, we leverage digital technology to enhance the consumer buying experience and meet evolving needs. By harnessing the power of digital innovation, we ensure that we remain at the forefront of the industry, offering cutting-edge solutions and unparalleled convenience to our valued customers. Experience the intersection of craftsmanship, sustainability, and innovation with us. Join us as we pave the way towards a brighter, more sustainable future, one tile at a time.

QUALITY ASSURANCE

Quality is non-negotiable. Guocera's tiles undergo comprehensive analysis and testing of raw materials, ensuring unparalleled quality in every tile, conducted by Ceramic Research Company (CRC) - accredited by Department of Standards Malaysia, and the laboratories are ISO/IEC 17025 certified.

COMMITMENT TO GREEN

As a green-certified company, we are dedicated to sustainability and environmental responsibility. Our commitment to innovation drives us to produce trendsetting tiles through a minimum-waste manufacturing process. By prioritizing eco-friendly practices, we lead the industry towards a more sustainable future.

OUR BRANDS & MILESTONES

GUOCERA

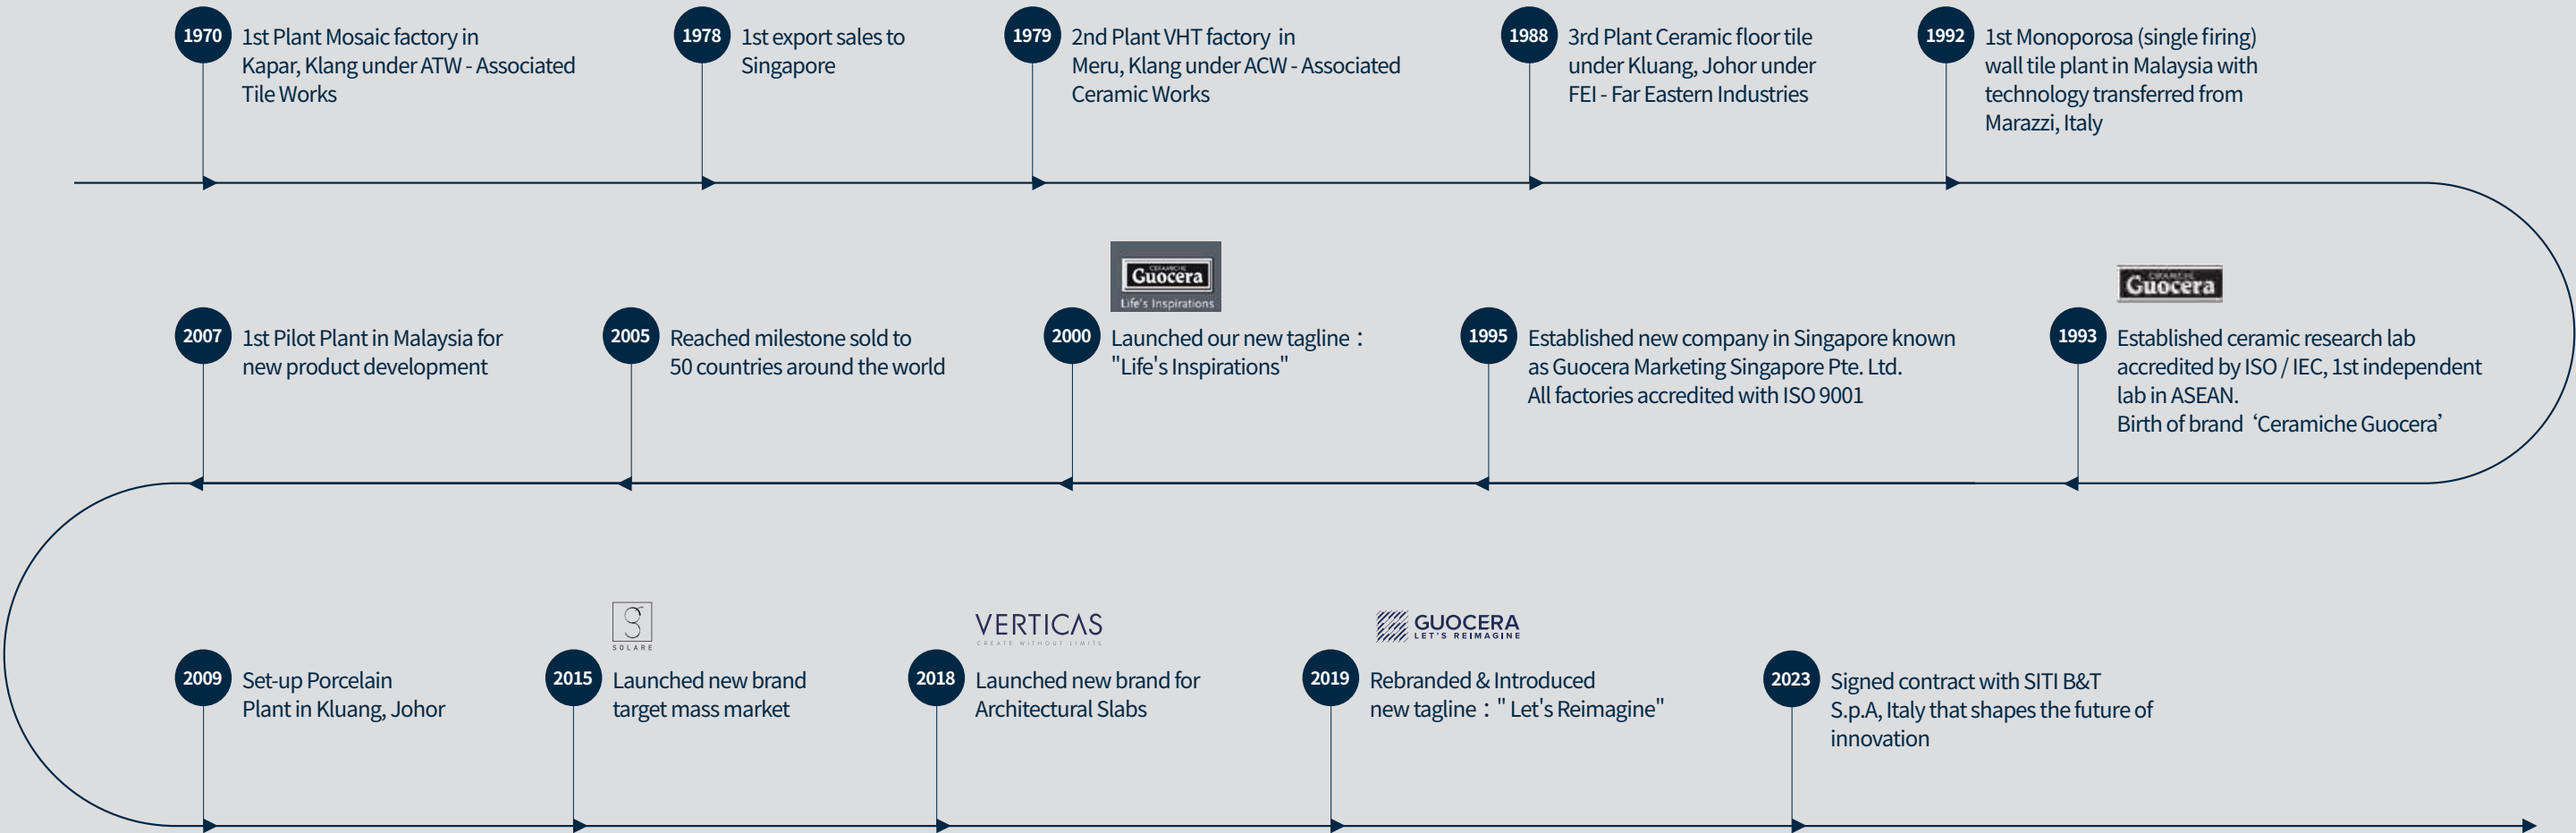

Discover our wide array of porcelain tiles across five distinct categories: Marble, Stone, Concrete, Wood, and the O.M.G Collection. Each is thoughtfully designed to meet diverse aesthetic and functional needs, ensuring a perfect match for every customer.

SOLARE

Solare offers affordable, simple, modern designs in trendy colours appealing to a broad market, complementing any space with sophistication and contemporary flair.

MODERN MINIMALISM

Combining minimalism with raw, contemporary beauty offers an ideal foundation for crafting a space that exudes a clean, chic, and industrial look. The raw, textured aesthetic introduces organic charm while maintaining sleek, uncluttered lines.

COLOUR SHADE VARIATION GUIDE

**V1**

Uniform Appearance
Differences among pieces from the same production run are minimal.

**V2**

Slight Variation
Slight variations in shade, design, and texture are noticeable.

**V3**

Moderate Variation
Colour, design, texture and overall appearance of tiles may vary significantly among pieces of tiles.

**V4**

Substantial Variation
There is substantial and random variation in shade and texture among the pieces of tiles.

Note:Prior to confirming your purchase, please ensure that you have accepted the full faces of the tile design.

NOTE:

- Please be aware that the colours of the tiles shown on a computer, tablet, or phone may not be an accurate representation of the actual colour of the tiles.
- Please take note that the color and design of the tiles may vary depending on the faces and sections from which they are cut. To ensure an accurate representation of the tile design, we recommend requesting full faces of the tile prior to confirming your purchase.
- Please note that slight variations in size and shade are a natural part of the ceramic tile manufacturing process. All tiles are packed into cartons that are clearly marked in compliance with applicable manufacturing standards.
- We highly recommend performing a dry lay with several cartons of tiles to assess the extent of shade variation and design, especially for tiles with high variation levels (V3 and V4), prior to installation. This will ensure that you accept the tiles before installation, as they cannot be exchanged or returned once they are installed.
- Please note that we reserve the right to modify the colour range or specifications of our tiles and discontinue the production of certain items at any time without prior notice.
